

## **General Info: Materials Chemistry and Physics (Materials Chemistry 2020) – International e-Conference**

Advances in Materials, Physics, and Chemistry Science (Materials Chemistry 2020) is an international conference that aims to bring together scientists, researchers and industrialists from all over the world on a common platform to discuss and share recent advances in Materials, Chemistry, and Physics.

Materials Chemistry 2020 aims to bring together scientists, researchers, and practitioners in order to discuss and share cutting-edge development in the field. Materials Chemistry 2020 provides an ideal platform and opportunity for all the young researchers to connect with eminent Scientists and Industrialists. The Conference is a premier enlightening and networking for all industry stakeholders, policy makers, investors, industry and research community to exchange experiences and challenges related to development and scaling up in the field of Materials Science physics and chemistry.

### **Web**

<https://materialschemistry.researchwaves.com/>

### **Address**

20-22, Wenlock Road, London, England, N1 7GU

### **Conference Venue**

Online conference (GMT+1, London)

### **Conference Date**

11-12 September 2020

### **E-mail**

[rina.akean@materialsummits.com](mailto:rina.akean@materialsummits.com)

### **Organized by**

Research Waves Ltd

Web: <https://researchwaves.com/>

Location: 20-22 Wenlock Road, London, England, N1 7GU

### **Organizing Committee**

Dr. Raman Singh, Monash University, Australia

Dr. Yuksel AKINAY, Van Yuzuncu Yil University, Turkey

Dr. Celio Albano da Costa Neto, UFRJ, Brasil

Dr. Yomen Atassi, UHIASST, Damascus, Syria  
Dr. Richard Palmer, Swansea University, UK  
Dr. Masahiro Yoshimura, National Cheng Kung University, Taiwan  
Dr. Timothy Long, Macromolecules Innovation Institute, USA  
Dr. Osman Adiguzel, Firat University, Turkey  
Dr. M. De Cesare, University of Campania Luigi Vanvitelli, Italy

### **Conference Highlights**

Materials Science and engineering  
Physics and Physics Engineering  
Chemical and Chemical Engineering  
Steels and Heat Treatment  
Applied physics  
Materials Chemistry  
Materials characterization techniques  
Polymer Science and Polymeric Materials  
Nanomaterials, Nanotechnology and Sensors  
Electrical and Magnetic Materials  
Optical Materials  
Carbon Nanomaterials, devices and technologies  
Smart Materials & Structures  
The Future of Piezoelectricity  
Bio-materials and Tissue Engineering  
Mining and minerology  
Advances in Manufacturing, Instrumentation Technology Energy and the Environment  
Nanotechnology in Healthcare  
Nanomedicine and Biomedical Engineering

### **Keynote Speakers**

Prof. Dr. Masahiro Yoshimura, National Cheng Kung University, Taiwan  
Prof. Dr. Swamini Chopra, Department of Mechanical Engineering, M.I.T., India  
Prof. Dr. Lucia D'Accolti, University of Bari "Aldo Moro", via E. Orabona, Italy  
Prof. Dr. Adrien Chauvet, The University of Sheffield, UK  
Prof. Dr. Richard E. Palmer, Swansea University, UK  
Prof. Dr. Nicola Cioffi, University of Bari "Aldo Moro", via E. Orabona, Italy  
Prof. Dr. Jow-Lay Huang, National Cheng Kung University, Taiwan  
Prof. Dr. Sabu Thomas, Mahatma Gandhi University, Kerala, India  
Prof. Dr. Thomas J. Webster, Northeastern University, USA  
Prof. Dr. Umberto Berardi, Ryerson University, Toronto, Ontario, Canada  
Prof. Dr. Roger M. Leblanc, University of Miami, USA
