Abstract: The present issue of Proceedings gathers papers presented at the 2nd edition of the OncoHub Conference - Connecting Scientists and Physicians for Next Generation, held hybrid (online and on-site in Poiana Brasov, Brasov, Romania) on 21-23 September 2022. The main goal of the conference is to bring together the cancer research & medical communities to exchange insights into recent research and cutting-edge technologies in the oncological field for improved cancer patient management from diagnostic to rehab. In this context, the 2nd edition of the OncoHub Conference highlighted the importance of building bridges between doctors and specialists in various biomedical fields – researchers, engineers, and pharmacists in support of the progress of medicine of the medical act. This edition demonstrated, through the presentations and debates generated, that this type of unit/collaboration between doctors-researchers-pharmacists-engineers have many advantages, it brings original ideas that improve performance and knowledge, and oncological patient health can, in turn, be improved following a comprehensive treatment. For this purpose, 68 invited speakers from 7 countries (Romania, Greece, Turkey, Spain, Italy, France, United States of America, and Canada) prepared oral talks that covered various types of cancers from a multidisciplinary point-of-view (gastrointestinal tract, skin, cancers, breast & gynecological, endocrine, urogenital, head-neck, hematological), as well as up to date research regarding modern trends in cancer patient`s management or cancer research.

Under the auspices of:

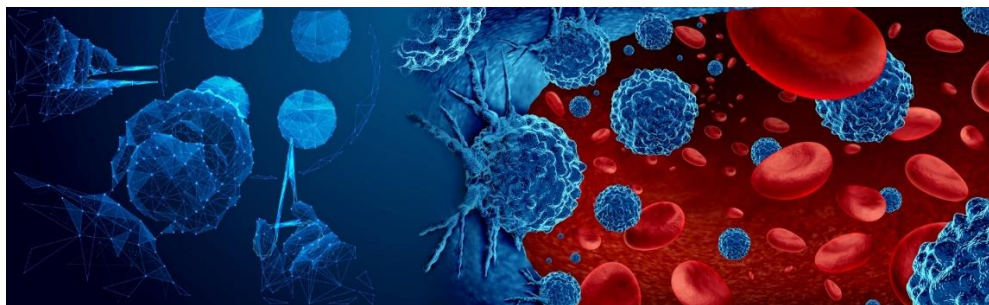

Funding

OncoHub organizers thank their partners Sanofi, AstraZeneca, NovaIntermed, Agilrom, Elta90, Neolife, Avantor, Dateligens, Phillips, Selgros Cash&Carry, and Affidea for their support in organizing the 2nd edition of the OncoHub Conference.

Acknowledgments

OncoHub organizers thank The Romanian College of Physicians, The Order of Biochemists, Biologists, and Chemists in the Health System in Romania, and The Romanian College of Pharmacists for their support in organizing this event. We acknowledge our Scientific Partners and Honorary Partners, as well as the Scientific Associations of Students & Residents, for their support in promoting our event. Last, we thank our management team from ProEvents&Conference, as well as our media partners and Quinn Media team, that ensured the logistic management and communication of the event and thank them for their valuable contribution and support for the OncoHub 2022 edition.
